Model(s) Affected: UDP32EM-K6DC-569, UDP32AR-K2AC-567, 17CD0121-1
Component Affected: LM315WR1-SSA1

Dear Valued Customer,

This notice serves to inform you that the LM315WR1-SSA1 LCD is being discontinued by the manufacturer and will no longer be available for future production. As a result, any display models incorporating the LM315WR1-SSA1 will also face obsolescence. ZMicro is actively evaluating alternative components to maintain compatibility with products affected above. Initial recommendations include:

Please discuss with your ZMicro sales representative for display alternatives.

We recommend you consider one of the following actions:

Recommended Actions

1. Do Nothing

- If no action is taken, any display models currently incorporating the LM315WR1-SSA1 will also be rendered obsolete after 6/30/2025. Future upgrades or support may not be available for these models.

2. Initiate a Last-Time Buy

- If you wish to continue building displays with the LM315WR1-SSA1, we encourage you to initiate a last-time buy while supplies. Please contact your sales representative as soon as possible to secure remaining inventory.

3. Upgrade to the Suggested Replacement

- To ensure continued compatibility and access to advanced features, ZMicro is actively working on a replacement for the LM315WR1-SSA1. This change may be a transition to a new LCD or a new display generation utilizing ZMicro's Kheiron architecture. Contact our sales team to receive more information regarding our Kheiron video controller and its capabilities. Our engineering team can support customers in testing these alternatives to ensure minimal disruption.

Next Steps

Please contact your account representative or our sales department to discuss your preferred course of action.

Thank you for your attention to this matter. We are committed to supporting your business needs and ensuring a smooth transition.
